The Division also plays a pivotal role in assisting other Ministries in efforts to advance economic diplomacy initiatives and attract FDI organizing business/investment related meetings.

During the year 2018, the Ministry of Foreign Affairs (MFA) has continued to play its role as a facilitator to support the engines of economic growth and economic revival in Sri Lanka through strengthening economic relations with other countries. The Economic Affairs of the MFA is primarily responsible for attracting investment and exploring vibrant markets for Sri Lankan products and services, including the promotion of tourism and foreign employment. The Division also liaises with key Government institutions responsible for promoting trade, investment, tourism and other economic activities.

### **1. Economic Diplomacy initiative:**

In order to effectively implement the Economic Diplomacy initiative of the Government of Sri Lanka, the division has introduced a programme to be rolled out over a period of three years, that comprises three components: (i) Economic Indicators and Performance Targets for Missions (EIPTM); (ii) economic promotion of Sri Lanka in selected markets; and (iii) the Sri Lanka Foreign Relations and Economic Diplomacy Dialogue. Each of these sub-programmes contributes to strengthening Sri Lanka's relations with other nations through economic diplomacy.

#### **i. Economic targets for Missions**

By allocating Performance Targets for Missions the MFA hopes to recognize and increase engagement with stronger markets, while allocating more resources to emerging or potential markets. This kind of strategic resource allocation would enable the MFA to maximize total engagement with various nations in a more cohesive manner.

#### **ii. Direct engagements in funding promotional activities**

'Economic Promotion of Sri Lanka,' a sub-programme to identify suitable ways Sri Lanka could further engage with a nation was introduced as a secondary component. As each market has a different set of strengths, this sub-programme is designed to identify the key markets and propose suitable promotional strategies catered to those strengths. Through this programme, the Ministry has taken the initiative to engagedirectly, finance and organize Economic Diplomacy programmes in 2018 and to be organized in 2019 in collaboration with the relevant line Ministries and the private sector.

11 Sri Lanka Missions overseas in emerging markets were supported in carrying out targeted campaigns to enhance Sri Lanka's global footprint and bring tangible economic benefits to the country. These promotional events ranged from promotion of ICT products and services and also organic food products in Sweden, apparel, textile and footwear in South Africa, fresh and processed food in Bahrain, electronic, tourism and apparel in Brazil, wellness tourism in the UAE, inward investment from ROK and Japan. The Ministry collaborated with all stakeholders to

select these programmes in line with the main focus sectors of the National Export Strategy (NES) launched by the Export Development Board.

### **iii. Sri Lanka Foreign Relation & Economic Diplomacy Dialogue (SLFREDD)**

Thirdly, the Sri Lanka Foreign Relations & Economic Diplomacy Dialogue was established by the MFA to cultivate relations with other countries. Mid-career diplomats from selected countries were invited to attend this diplomatic training course in Sri Lanka and the SLFREDD was successfully conducted by the MFA in October 2018 with the participation of mid-career level diplomats from 23 countries representing all regions of the world.

The objective of this Programme was to foster relations with future decision makers of countries that are important to the economic growth of Sri Lanka, particularly in terms of trade, investment, tourism as well as foreign investment. The Programme aimed at providing comprehensive exposure in the areas of Sri Lanka's socio-economic development and future prospects, while emphasizing on global issues, economic diplomacy and other thematic areas. The MFA is currently in the process of preparing a booklet comprising all lecturers and experiences shared during this programme which could be used as manual in future diplomatic training programmes. Based on the success of this programme, the Ministry intends to continue to host such programmes in future as a soft power approach to Sri Lanka's Economic Diplomacy initiatives utilizing budgetary provisions under the Economic Diplomacy Programme.

This MFA has supported the efforts of other stakeholder Ministries and agencies in their efforts to advance Sri Lanka's trade and economic Policies through the 67 Diplomatic Missions across the world. As per the EU GSP+ regulations, once a country becomes a GSP+ beneficiary, the monitoring process begins on a two-year cycle which is quite intensive and continuous. This process involves 2 inter-related tools – (i) a scorecard for the beneficiary country (ii) a close dialogue with the beneficiary country (through visits, meetings, etc.). In this regard, the EU forwarded the GSP+ scorecard for Sri Lanka through letter dated 29 March 2018 addressed to Hon. Minister of Development Strategies and International Trade.

The list of issues contained therein addresses the most salient shortcomings in the implementation of the 27 international conventions relevant to the GSP+, categorized under four clusters namely, Human Rights, Labour, Governance and Environment.
- The Ministry of Foreign Affairs, in coordination with the GSP+ focal point- the Ministry of Development Strategies and International Trade, compiled the GoSL response to the Scorecard, following consultations with the Heads and members of the four clusters mentioned above. - In order to address the key GSP+ commitment matters, the Meeting of the Ministerial Committee on GSP+, Chaired by Hon. Minister of Foreign Affairs was held on 19 October 2018, during which inter-ministerial consent was received to progress on those key matters.
- In addition, the Ministry has also engaged with the EU Delegation in Colombo, as well as officials in Brussels, time to time, in clarifying the GoSL positions with regard to some of the key concerns raised by the EU.
- Sri Lanka also submitted a request for Cross Regional Cumulation to the European Commission in June 2018, for origin status of apparel products manufactured in Sri Lanka by using materials originating in Indonesia.

1. Financial Statement

2. Qualified Opinion

The Financial statement of the Ministry of Foreign Affairs for the year ending 31 December 2018 consisting of the Financial Status Report as at 31 December 2018, Financial Performance Report for the year for the same and Cash Flow statement were audited under my direction in accordance with provisions set out in Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka to be read along with the provisions laid down in the National Act No. 19 of 2018. My comments and observations with regard to the Financial Statement being submitted to the Ministry of Foreign Affairs as per Clause 11(1) of the National Audit Act No. 19 of 2018 are contained in this report. The Annual detailed Management Audit Report to the Accounting Officer as per Clause 11(2) of the National Audit Act No. 19 of 2018 will be issued in due course. The Auditor General’s report in accordance with Clause 10 of the National Audit Act No. 19 of 2018 to be read along with Article 154(6) of the Constitution of the Democratic Socialist Republic of Sri Lanka will be presented to the Parliament in due course.

It is my opinion that a true and fair position of the Financial Status as at 31 December 2018, financial Performance for the year ending at that date and Cash Flow of the Ministry of Foreign Affairs is reflected in the Financial statement, other than the impact caused by the facts stipulated in para.1.6 of this Report.

1.2. Basis of Qualified Opinion

Audit was conducted by me in accordance with Sri Lanka Audit Standards. My responsibility with regard to the financial statements are further described under Clause titled Responsibility of the Auditor. It is my belief that audit evidences obtained by me to compile a basis for my opinion are adequate and appropriate for the purpose.

1.3. Responsibility of the Chief Accounting Officer with regard to Financial Statements

It is the responsibility of the Chief Accounting Officer to compile Financial statements reflecting the true and fair position in accordance with generally accepted Accounting principles and provisions set out the Clause 38 of the National Audit Act No. 19 of 2018 and to decide on the internal administration process enabling compilation of Financial Statements sans quantitatively erroneous statements due to frauds and faults. The Ministry should duly maintain books and reports with regard to its Revenue, Expenditure, Assets and Liabilities enabling compilation of Annual and current Financial Statements in line with Clause 16(1) of the National Audit Act No.19 of 2018.

The Chief Accounting Officer should ensure that an effective internal administration network, as per Sub Clause 38(1)(c) of the National Audit Act, is being maintained in the Ministry which should be reviewed from time to time to ensure its effectiveness and should make amendments necessary for streamlining.

#### 1.4. Responsibility of the auditor with regard to Auditing of Financial Statement

---

My objective is to make available a fair confirmation to the effect that the Financial Statements as a whole are devoid of quantitatively erroneous statements which may cause due to frauds and faults and to issue the Auditor General's Report containing my opinion. Although a reasonable assurance is a high level certification, it will not be a confirmation that it is devoid of quantitatively misrepresentations, in the process of auditing as per Sri Lanka Auditing Standards. Quantative misrepresentations may arise dueto individual or collective impact of frauds and faults and duevigilance should be exercised by those who make economic conclusions on the basis of these financial statements.

The auditing was carried out withprofessional judgmentand professional dubiety as per Sri Lanka Audit Standards. Thus:

- Basis of my opinion was the collection of quantitative and appropriate Audit evidence in order to avoid risks which may arise due to frauds and faults, through planning of savoir-faire audit procedures in the instances of identifying and assessing risks of quantitatively erroneous declarations in Financial Statements due to frauds and faults. The impact caused by a fraud may be more intensive than an impact caused by quantitatively erroneous statements and a fraud may be caused through collusion, forgery, willful evasion or evasion of internal administrative network.
- It is not intended to make an opinion with regard to the effectiveness of the internal administration network in the Ministry in order to compile savoir-faire auditing systems.
- Evaluation of appropriate and reasonable inclusion of transactions and events which provided the basis for structure and contents of the financial statements containing revelations.
- Transactions and events which provided the basis for structure and contents of the financial statements have been appositely and reasonably included when submitting Financial Statements as a whole.
